Independent auditors' report on review of condensed consolidated interim financial information

The Board of Directors
Gulf International Bank BSC
PO Box 1017
Manama
Kingdom of Bahrain

18 July 2014

Introduction

We have reviewed the accompanying 30 June 2014 condensed consolidated interim financial information of Gulf International Bank BSC (the "Bank") and its subsidiaries (together the "Group"), which comprises:

- the condensed consolidated statement of financial position as at 30 June 2014;
- the condensed consolidated statement of income for the three-month and six-month periods ended 30 June 2014;
- the condensed consolidated statement of comprehensive income for the three-month and six-month periods ended 30 June 2014;
- the condensed consolidated statement of changes in equity for the six-month period ended 30 June 2014;
- the condensed consolidated statement of cash flows for the six-month period ended 30 June 2014; and
- notes to the condensed consolidated interim financial information.

The Board of Directors of the Bank is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2014 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

The notional principal amounts reported above are stated gross before applying credit risk mitigants, such as cash collateral, guarantees and counter-indemnities. At 30th June 2014, the Group held cash collateral, guarantees, counter-indemnities or other high quality collateral in relation to credit-related contingent items amounting to US\$885.3 million (31st December 2013: US\$985.8 million).

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
For the six months ended 30th June 2014**12. Fair value of financial instruments**

The Group's financial instruments are accounted for under the historical cost method with the exception of trading securities, equity investment securities and derivative financial instruments, which are accounted for at fair value. The fair value represents the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Differences therefore can arise between book values under the historical cost method and fair value estimates. Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or requirement to curtail materially the scale of its operation or to undertake a transaction on adverse terms. Generally accepted methods of determining fair value include reference to quoted prices (level 1 measurement) or to the pricing prevailing for similar observable market financial instruments (level 2 measurement) and the use of unobservable inputs in estimation techniques such as discounted cash flow analysis (level 3 measurement).

The valuation methodologies applied are outlined below.

12.1 Trading securities

The fair values of trading securities are based on quoted prices (level 1) or valuation techniques (level 2).

12.2 Investment securities

The fair values of equity investment securities are based on quoted prices (level 1) or valuation techniques (level 2 or 3). The fair values of debt investment securities are based on quoted market prices (level 1) and approximate the carrying values.

12.3 Loans and advances

The fair values (level 2) of loans on a floating interest rate basis are principally estimated at book value less provisions for impairment. The fair values (level 3) of impaired loans are estimated at the recoverable amount, measured as the present value of expected future cash flows discounted based on the interest rate at the inception of the loan. The fair values of fixed rate loans are estimated on a discounted cash flow basis utilising discount rates equal to prevailing market rates of interest in the respective currencies for loans of similar residual maturity and credit quality. The fair values (level 2) approximate the carrying values.

12.4 Term financing

The fair value of term financing is based on observable market data, including quoted market prices for debt instruments issued by similarly rated financial institutions and with similar maturities, or estimated on a discounted cash flow basis utilising currently prevailing spreads for borrowings with similar maturities. The fair values (level 2) of senior term financing and subordinated term financing at 30th June 2014 approximate their respective book values.

12.5 Other on-balance sheet items

The fair values of foreign exchange and derivative financial instruments are based on market prices, discounted cash flow techniques or option pricing models as appropriate. The fair values of all other on-balance sheet financial assets and liabilities approximate their respective book values due to their short-term nature.

12.6 Credit-related contingent items

There was no material fair value excess or shortfall in respect of credit-related off-balance sheet financial instruments, which include commitments to extend credit, standby letters of credit and guarantees, as the related future income streams reflected contractual fees and commissions actually charged at the balance sheet date for agreements of similar credit standing and maturity. Specific provisions made in respect of individual transactions where a potential for loss has been identified are included in provisions for the impairment of loans and advances.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
For the six months ended 30th June 2014

12. Fair value of financial instruments (continued)

The valuation basis for financial assets and financial liabilities carried at fair value was as follows:-

	Quoted prices (level 1) <u>US\$ millions</u>	Valuation based on observable market data (level 2) <u>US\$ millions</u>	Other valuation techniques (level 3) <u>US\$ millions</u>
At 30th June 2014			
Financial assets:-			
Trading securities	55.9	1.7	-
Investment securities - equities	180.7	9.8	133.8
Derivative financial instruments	-	204.7	-
Financial liabilities:-			
Derivative financial instruments	-	223.0	-
At 31st December 2013			
Financial assets:-			
Trading securities	49.1	1.8	-
Investment securities - equities	165.1	10.7	132.6
Derivative financial instruments	-	174.9	-
Financial liabilities:-			
Derivative financial instruments	-	192.4	-

Quoted prices include prices obtained from lead managers, brokers and dealers. Investment securities valued based on other valuation techniques comprise private equity investments that have been valued based on price / earnings and price / book ratios for similar entities, discounted cash flow techniques or other valuation methodologies.

During the period ended 30th June 2014, the value of investment securities whose measurement was determined by other valuation techniques (level 3 measurement) increased by US\$1.2 million (30th June 2013: increased by \$5.0 million). The increase principally comprised changes in assigned valuations as recognised in other comprehensive income. No transfers out of, or into, the level 3 measurement classification occurred during the period ended 30th June 2014. Similarly, no transfers between level 1 and level 2 measurement classifications were made during the period ended 30th June 2014.

Sensitivity of the movement in the fair value of financial instruments in the level 3 category is assessed as not significant to other comprehensive income or total equity.

13. Segmental information

For financial reporting purposes, the Group is organised into four main operating segments:-

- Wholesale banking: the provision of wholesale commercial financing and other credit facilities for corporate and institutional customers, and the provision of financial advisory services relating to structured financing, privatisations, initial public offerings, and mergers and acquisitions.
- Treasury: the provision of a broad range of treasury and capital market products and services to corporate and financial institution clients, money market, proprietary investment and trading activities and the management of the Group's balance sheet, including funding.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
For the six months ended 30th June 2014

13. Segmental information (continued)

The results reported for the business segments are based on the Group's internal financial reporting systems, which report interest revenue and interest expense on a net basis. The accounting policies of the segments are the same as those applied in the preparation of these condensed interim consolidated financial statements. Transactions between business segments are conducted on normal commercial terms and conditions. Transfer pricing between the business units is based on the market cost of funds.

Segment results, assets and liabilities comprise items directly attributable to the business segments. Liabilities reported for corporate and support units comprise senior and subordinated term finance facilities and related accrued interest, the cost of which is recharged to the relevant operating business segments.

The business segment analysis is as follows:-
