

Corporate governance report

Corporate Governance Statement according to Principles of the Corporate Governance Code of the Kingdom of Bahrain and Corporate Governance Principles of the Central Bank of Bahrain (CBB).

SOUND GOVERNANCE

When Gulf International Bank B.S.C. (“GIB” or the “Bank”) was established back in 1975, its Agreement of Establishment and Articles of Association (“AoA”), executed at the time by the GCC Governments that created it, set the foundation of solid governance practices for the Bank. From the start, sound corporate governance has been essential at GIB, both in achieving organisational integrity and efficiency as well as in attaining fairness to all stakeholders.

Over the years, GIB has progressively adopted and implemented standards of corporate governance relevant to publicly-traded financial institutions although it is not a listed company. GIB has regularly published a statement on corporate governance in its annual reports since 2003.

Currently, GIB has in place many measures that are hallmarks of good corporate governance practices, such as comprehensive mandates for the Board of Directors (“Board”) and for Directors and for Board Committees; a Code of Conduct (Code on Conduct, Ethics and Avoiding Conflicts of Interest) in both English and Arabic published on the Bank’s website and detailed operating policies that anticipated the CBB’s new requirements. Subsequently, GIB adopted additional measures that included, amongst other things, an updated Board Charter and updated mandates of the Board Committees; an enhanced Whistle Blowing Policy; a Board Corporate Governance Committee; the establishment of a dedicated Corporate Governance Unit within the Compliance department; and an update of its variable remuneration framework to fully comply with the Sound Remuneration Practices issued by the CBB.

The Board and its respective Committees’ mandates are subject to an annual review to ensure that they continue to reflect the current processes, best practices and any new regulatory requirements. The last updates were initiated and approved by the Board in its 6th meeting held on 15th December 2017.

The Board Charter is posted in its entirety on the Bank’s website (www.gib.com), and largely reflects the corporate governance requirements contained in the HC (High Level Controls) Module of the CBB Rulebook Volume 1.

The measures adopted by GIB formally entrenched a culture of professional corporate governance in the organisation. They also demonstrated GIB’s commitment to financial transparency, fairness and disclosure of financial information that will benefit all users of such information, including regulators, customers, counterparties, rating agencies and other stakeholders.

In March of every year, the Board prepares for its Shareholders' Annual General Meeting ("AGM") a report on GIB's compliance with the CBB rules on corporate governance, which explains any non-compliance. The explanations contained in this year's "Comply or Explain" report are reproduced at the end of this section of the Annual Report.

GIB discloses in the Annual Report additional information required to be disclosed in accordance with Section PD-1.3.8 of the CBB Rulebook Volume 1, and the Board also discloses to the Shareholders the information required to be disclosed to them annually in accordance with Section PD-6.1.1 of the Rulebook.

SHAREHOLDERS

The current shareholding structure of GIB is as follows:

Shareholder	Percentage of shareholding
Public Investment Fund Kingdom of Saudi Arabia	97.226%
Kuwait Investment Authority State of Kuwait	0.730%
Qatar Holding Company State of Qatar	0.730%
Bahrain Mumtalakat Holding Company Kingdom of Bahrain	0.438%
State General Reserve Fund Sultanate of Oman	0.438%
Emirates Investment Authority United Arab Emirates	0.438%

ORGANISATION – RULES AND ROLES

GIB maintains a corporate governance structure that delineates and segregates the functions, roles and responsibilities of the Board and Management, and ensures that the requisite separate attribution of responsibilities between them is maintained:

- There is an effective and appropriately constituted Board responsible for the stewardship of the Bank and the supervision of its business; it receives from Management all information required to properly fulfil its duties and the duties of the committees that assist it; and it delegates to Management the authority and responsibility for managing the day-to-day business of the Bank.

- There is an effective and appropriately organised management structure responsible for the day-to-day management of the Bank and the implementation of Board-approved strategy, policies and controls.
- There is a clear division of roles and responsibilities between the Board and Management, and between the Chairman and the Group Chief Executive Officer (Group CEO).
- There are defined and documented mandates and responsibilities (as well as delegated authorities where applicable) for Senior Management.

The Bank's corporate governance structure and organisation chart is set out on page 58 of this Annual Report.

BOARD OF DIRECTORS

Under GIB's AoA, the Board comprises up to 10 members to be appointed or elected every three years. The AoA gives the right to each Shareholder holding 10 per cent of the share capital to appoint one member on the Board. The Shareholders exercising this right also have the right to terminate such appointment and replace the relevant Directors. The appointment of Directors is subject to prior approval from the CBB. In December 2017, Dr. Abdullah Alabdulgader assumed the duties of the Chairman of the Board upon the demise of the late H.E. Jammaz Al-Suhaimi. Also, in December 2017, the Board reconstituted its Committees.

GIB has a written appointment agreement with each Director. This agreement describes the Directors' powers, duties, responsibilities and accountabilities, as well as other matters relating to their appointment, including their term, the time commitment envisaged, their assignment on the Board Committees, their remuneration and expense reimbursement entitlement, and their access to independent professional advice when needed.

At the year end, the Board comprised six Directors of whom five are non-executive Directors, including the Chairman and Vice-Chairman, and one executive Director, who together bring a wide range of skills and experience to the Board. Their biographies are set out on page 52 of this Annual Report.

INDEPENDENCE OF DIRECTORS

The independence or non-independence of the Directors is subject to an annual review by the Board. As at 31st December 2017, one Director of the Bank was classified as non-independent in accordance with the CBB regulations, and the other Directors were classified as independent (see table below).

BOARD RESPONSIBILITIES

The Board is responsible for the overall business performance and strategy of the Bank.

The Board establishes the objectives of the Bank, the adoption and annual review of strategy, the management structure and responsibilities, and the systems and controls framework. It monitors Management performance, and the implementation of strategy by Management, keeps watch over conflicts of interest, and prevents abusive related party transactions.

The Board is also responsible for the preparation and fair representation of the consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal controls as the Board determines is necessary to enable the preparation of

the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

The Board also convenes and prepares the agenda for Shareholders' meetings, and assures equitable treatment of Shareholders including minority Shareholders.

Finally, the Board delegates to Management the responsibility for the day-to-day management of the Bank in accordance with policies, guidelines and parameters set by the Board.

In preparation for Board and Committee meetings, the Directors receive, in a timely manner, regular reports and all other information required for such meetings, supplemented by any additional information specifically requested by the Directors from time to time. The Directors also receive monthly financial reports and other regular management reports that enable them to evaluate the Bank's and Management's performance against agreed objectives. As prescribed in GIB's Articles of Association, the Board plans at least four meetings per year, with further meetings to occur at the discretion of the Board.

The details of Board membership and Directors' attendance during 2017 are set out in the following table:

DIRECTORS' ATTENDANCE JANUARY - DECEMBER 2017

EXECUTIVE COMMITTEE

The mandate of the Executive Committee requires it, among other things, to:

- Assist the Board in formulating the executive policy of the Bank and controlling its implementation.
- Assist the Board by reviewing, evaluating, and making recommendations to the Board with regard to key strategic issues or material changes in key strategic objectives or direction.
- Approve credit limits that exceed the authority of the Group CEO, subject to the limits approved by the Board.
- Carry out additional responsibilities specifically mandated to it by the Board.
- Exercise the powers of the Board on matters for which the Board has not otherwise given specific direction in circumstances in which it is impossible or impractical to convene a meeting of the Board (and subject to applicable law and GIB's Agreement of Establishment & Articles of Association). However, the Board may, acting unanimously, modify or amend any decision of the Committee on such matters.

In all cases, the members of the Committee must exercise their business judgement to act in what they reasonably believe to be in the best interests of the Bank and its Shareholders.

AUDIT COMMITTEE

The role of the Audit Committee is to review the Group's financial position and make recommendations to the Board on financial matters, internal controls, compliance and legal requirements. Its responsibilities include:

- Assisting the Board in its oversight of (i) the integrity and reporting of the Bank's quarterly and annual financial statements; (ii) compliance with legal and regulatory requirements; (iii) the Bank's systems of internal controls; and (iv) the qualifications, independence and performance of the Bank's internal and external auditors.
- Overseeing performance of the Bank's internal audit function and independent audits.

The mandate of the Audit Committee provides further particulars on financial reporting processes, process improvements, and additional ethical and legal compliance overview responsibilities. The Group Chief Auditor reports functionally to the Audit Committee and administratively to the Group CEO.

RISK POLICY COMMITTEE

The Committee assists the Board in fulfilling its oversight responsibilities in respect of setting the overall risk appetite, parameters and limits within which the Bank conducts its activities. On an on-going basis, the Committee:

- Ensures that realistic policies in respect of management of all significant risks are drafted and approved appropriately.
- Receives, reviews, challenges and recommends for approval by the Board any proposed amendments to the overall risk appetite of the Bank.
- Monitors whether Management maintains a culture that rewards the recognition, communication and management of risks.
- Ensures that roles and responsibilities for risk management are clearly defined, with Group and/or division heads directly responsible, and that heads of risk management and the control functions are in supporting or monitoring roles, independent of business development.
- Ensures that Management reports significant excesses and exceptions, as and when they arise, to the Committee for information and review.
- Ensures that, on a timely basis, Management informs the Committee of all significant risks arising, and that it is comfortable with Management's responses and actions taken to address such findings.
- Reviews the Bank's risk profile and significant risk positions and in so doing:
 - Receives reports on credit exposure by country, credit rating, industry/concentration, nonperforming loans and credit stress tests.
 - Receives reports on liquidity and market risk positions (VaR).
 - Receives updates on operational risk management.
 - Receives updates on cyber risks
 - Receives updates on strategic risks
 - Receives reports on changes to credit approvals or extension processes, credit risk measurement, market risk measurement and risk control measures.
 - Receives updates on retail banking risks.

NOMINATION & REMUNERATION COMMITTEE

The principal objective of the Committee is to help the Board with ensuring that the Bank's remuneration levels remain competitive for GIB to continue to attract, retain and motivate competent staff to achieve the strategy and objectives of the Bank. The responsibilities of the Committee, as stated in its mandate, also include, but are not limited to, the following:

Nomination matters:

- Assessing the skills and competencies required on the Board, the Committees of the Board, and Senior Management.
- Assessing from time to time the extent to which the required skills are represented on the Board and Senior Management.
- Establishing processes for reviewing the performance of the individual Directors and the Board as a whole.
- Establishing processes for reviewing the performance of the individual Senior Executives and Senior Management as a whole.
- Overseeing Directors' corporate governance educational activities.
- Establishing processes for the identification of suitable candidates for Senior Management, and identifying and recommending individuals qualified to become members of Senior Management.
- Establishing a succession plan for Senior Management.

Remuneration matters:

- Reviewing and making recommendations to the Board in respect of:
 - The executive remuneration and incentive policy which includes the fixed and variable remuneration for approved persons, and material risk-takers.
 - Policies relating to recruitment, retention, performance measurement and termination for the Directors, the Group CEO and Senior Management.
- Approve, monitor and review the remuneration system to ensure the system operates as intended.
- Approve the remuneration amounts for each approved person and material risk-taker, as well as total variable remuneration to be distributed, taking account of total remuneration including salaries, fees, expenses, bonuses and other employee benefits.
- Review the stress testing and back testing results before approving the total variable remuneration to be distributed, including salaries, fees, expenses, bonuses and other employee benefits.

CORPORATE GOVERNANCE COMMITTEE

The role of the Committee is to assist the Board in shaping and monitoring the corporate governance policies. Its responsibilities include:

- Overseeing the development and maintenance of corporate governance policies.
- Monitoring the Bank's compliance with regulatory requirements relating to corporate governance.
- Review mandates and performance evaluations of the Board and its Committees, and recommend to the Board any improvements deemed necessary or desirable to the mandates.
- Review classification of individual Directors, and declaration of Directors and members of Senior Management regarding their outside activities and interests to determine whether any conflict of interest exists, and take appropriate steps in that regard.
- Oversee the Bank's public reporting on corporate governance matters.

EVALUATION OF THE BOARD OF DIRECTORS

The mandates of the Corporate Governance and the Nomination & Remuneration Committees, as well as the Board Charter, reflect the requirement that the Board must conduct an evaluation of its performance, the performance of each Committee and of each individual Director, at least annually. The Board reviewed independent performance reports from each of its Committees as well as a report on its own performance by evaluating the major activities undertaken during the year in comparison with the respective mandates. The evaluation of individual Directors included measurable rating scales, self-evaluations and the Chairman's input. A report on the evaluations conducted each year is also provided to Shareholders at each AGM.

INDUCTION & THE CONTINUING EDUCATION OF DIRECTORS

The Board and its Committees regularly receive updates on key developments in the regulatory and other areas that fall under their responsibilities.

The Board also stresses the importance of providing training and development opportunities for the Directors. The Board has passed a resolution to encourage Directors to seek any training they deem necessary (with the Bank bearing the expenses of such training), and the Directors are frequently briefed on the availability of training opportunities.

MANAGEMENT

The Senior Management team is responsible for the day-to-day management of the Bank entrusted to it by the Board. It is headed by the CEO, who is assisted by the Chief Financial Officer, Chief Risk Officer, Chief Operating Officer, Wholesale Banking Head, Retail Banking Head, Chief Investment and Treasury Officer, Chief Information Officer and Chief Human Resources Officer. The biographies of the key members of the Senior Management team are set out on page 54 of this Annual Report.

The following six committees assist the CEO in the management of the Bank:

- Management Committee
- Group Risk Committee
- Assets and Liabilities Committee (ALCO)
- Job Evaluation Committee
- Information Security Management Committee
- Operational Risk Committee

These Committees derive their authorities from the CEO, based on the authorities and limits delegated by the Board.

In fulfilling its principal responsibility for the day-to-day management of the Bank, the Senior Management team is required to implement Board-approved policies and effective controls, within the strategy and objectives set by the Board.

Letters of appointment are issued to members of the Senior Management team setting out their specific responsibilities and accountabilities that include assisting with and contributing to the following:

- Formulation of the Bank's strategic objectives and direction.
- Formulation of the Bank's annual budget and business plan.
- Ensuring that high-level policies are in place for all areas, and that such policies are fully applied.
- The setting and management of risk/return targets in line with the Bank's overall risk appetite.
- Determining the Bank's overall risk-based performance measurement standards.
- Reviewing business units' performance and initiating appropriate action.
- Ensuring that the Bank operates to the highest ethical standards, and complies with both the letter and spirit of the law, applicable regulations and codes of conduct.
- Ensuring that the Bank is an exemplar of good business practice and customer service.

Their attention is also drawn to the fact that these obligations are in addition to their specific functional responsibilities and objectives, and those set out in the Bank's Corporate Policy Manual.

REMUNERATION

The Bank's total compensation policy, which includes the variable remuneration policy, sets out GIB's policy on remuneration for Directors and Senior Management, and the key factors that were taken into account in setting the policy.

The Bank adopts a Sound Remuneration Practices in accordance to CBB requirements. The Board approved the framework and incentive components, and obtained Shareholder's approval at the 2015 AGM. The key features of the remuneration framework are summarised below.

Remuneration strategy

It is the Bank's basic compensation philosophy to provide a competitive level of total compensation to attract, retain and motivate qualified and competent employees. The Bank's variable remuneration policy is driven primarily by a performance-based culture that aligns employee interests with those of the Shareholders of the Bank. These elements support the achievement of set objectives through balancing reward for both short-term results and long-term sustainable performance. The strategy is designed to share its success and to align employees' incentives with the risk framework and risk outcomes.

The quality and long-term commitment of all employees is fundamental to the success of the Bank. The Bank therefore aims to attract, retain and motivate the very best people who are committed to maintaining a career with GIB, and who will perform their role in the long-term interests of Shareholders. The Bank's reward package comprises the following key elements

- Fixed pay
- Benefits
- Annual performance bonus
- Deferred bonus share plan.

A robust and effective governance framework ensures that the Bank operates within clear parameters of its compensation strategy and policy. All compensation matters, and overall compliance with regulatory requirements, are overseen by the Nomination and Remuneration Committee of the Board ("NRC").

The Bank's remuneration policy, in particular, considers the role of each employee, and has set guidance depending on whether an employee is a Material Risk Taker and/or an Approved Person in business line, control or support functions. An Approved Person is an employee whose appointment would require prior regulatory approval because of the significance of the role within the Bank; and an employee is considered a Material Risk Taker if they head up significant business lines, and any individuals within their control have a material impact on the Bank's risk profile.

In order to ensure alignment between what is paid to employees and the business strategy, GIB assesses Bank-wide, divisional and individual performance against annual and long-term financial and non-financial objectives, summarised in line with the business planning and performance management process. This takes into account adherence to the Bank's values, risk and compliance measures and, above all, acting with integrity. Altogether, performance is therefore judged not only on what is achieved over the short- and long-term, but also importantly on how it is achieved, as the latter contributes to the long-term sustainability of the business.

NRC role and focus

The NRC has oversight of all reward policies for the Bank's employees. The NRC is the supervisory and governing body for compensation policy, practices and plans. It is responsible for determining, reviewing and proposing variable remuneration policy for approval by the Board. It is responsible for setting the principles and governance framework for all compensation decisions. The NRC ensures that all persons must be remunerated fairly and responsibly. The remuneration policy is reviewed on a periodic basis to reflect changes in market practices, and the business plan and risk profile of the Bank.

The aggregate remuneration paid to the NRC members during the year in the form of sitting fees amounted to US\$54,000 [2016: US\$45,000].

Scope of application of the remuneration policy

The principles of this remuneration policy apply on a Group-wide basis. However, application of deferral requirements and issue of non-cash instruments for foreign branches and subsidiaries of the Bank is determined by applicable local regulations and market norms.

Board remuneration

The Bank's board remuneration is determined by its Shareholders in line with its Articles of Association. The compensation is linked to actual attendance of meetings. The structure and level of the compensation for the members of the Board are approved by the AGM, and consist of the following:

- Attendance fees payable to members attending different Board-related Committee meetings.
- Allowance to cover travelling, accommodation and subsistence, while attending Board and related Committee meetings.
- A pre-defined fixed amount representing an annual remuneration fee.

In 2017, the aggregate remuneration paid to Board members and key Management was US\$12.8 million [2016: US\$11.2 million] of which US\$2.3 million [2016: US\$2.9 million] was paid to the Board members.

Variable remuneration for staff

The variable remuneration is performance related, and consists primarily of the annual performance bonus award. As a part of the staff's variable remuneration, the annual bonus reward consists of delivery of operational and financial targets set each year, the individual performance of the employees in achieving those targets, and their contribution to delivering the Bank's strategic objectives.

The Bank has adopted a Board-approved framework to develop a transparent link between variable remuneration and performance. The framework is designed on the basis that the combination of meeting both financial performance and achievement of other non-financial factors would, all other things being equal, deliver a target bonus pool for the employees, prior to consideration of any allocation to business lines and employees individually. In the framework adopted to determine the variable remuneration pool, the NRC aims to balance the distribution of the Bank's profits between Shareholders and employees.

The key performance metrics at the Bank level include a combination of short-term and long-term measures, and include profitability, solvency, liquidity and growth indicators. The performance management process ensures that all goals are appropriately cascaded down to respective business units and employees.

Corporate governance report (continued)

In determining the amount of variable remuneration, the Bank starts from setting specific targets, establishing market comparable bottom-up, setting a profit target and other qualitative performance measures that would result in a target top-down bonus pool. The bonus pool is then adjusted to take account of risk via the use of risk-adjusted measures.

The NRC carefully evaluates practices by which remuneration is paid for potential future revenues whose timing and likelihood remain uncertain. The NRC demonstrates that its decisions are consistent with an assessment of the Bank's financial condition and future prospects.

The Bank uses a formalised and transparent process to adjust the bonus pool for quality of earnings. It is the Bank's objective to pay out bonuses out of realised and sustainable profits. If the quality of earnings is not strong, the profit base could be adjusted based on the discretion of the NRC.

For the Bank to have any funding for distribution of a bonus pool, thresholds of financial targets have to be achieved. The performance measures ensure that the total variable remuneration is generally considerably contracted where subdued or negative financial performance of the Bank occurs. Furthermore, the target bonus pool, as determined above, is subject to risk adjustments in line with the risk adjustment and linkage framework.

Remuneration of control functions

The remuneration level of staff in the control and support functions allows the Bank to employ qualified and experienced personnel in these functions. The Bank ensures that the mix of fixed and variable remuneration for control and support function personnel is weighted in favour of fixed remuneration. The variable remuneration of control functions is based on function-specific objectives, and is not to be determined by the individual financial performance of the business area they monitor.

The Bank's performance management system plays a major role in deciding the performance of the support and control units on the basis of the objectives set for them. Such objectives are more focused on non-financial targets that include risk, control, compliance and ethical considerations, as well as the market and regulatory environments, apart from value-adding tasks which are specific to each unit.

Variable remuneration for business units

The variable remuneration for the business units is primarily decided by the key performance objectives set through the performance management system of the Bank. Such objectives contain financial and non-financial targets, including risk control, compliance and ethical considerations, as well as the market and regulatory environments

Risk assessment framework

The risk assessment framework of GIB aligns variable remuneration to the risk profile of the Bank, and also ensures that the remuneration policy reduces employees' incentives to take excessive and undue risk. The Bank considers both quantitative measures and qualitative measures in the risk assessment process, and risk adjustments are applied to ensure that the Bank's remuneration policies are aligned to its risk appetite.

The NRC considers whether the variable remuneration policy is in line with the Bank's risk profile, and ensures that through the ex-ante and ex-post risk assessment framework and processes, remuneration practices where potential future revenues, whose timing and likelihood remain uncertain, are carefully evaluated.

Risk adjustments take into account all types of risks, including intangible and other risks such as reputation risk, liquidity risk and the cost of capital. The Bank undertakes risk assessment to review financial and operational performance against the business strategy and risk performance, prior to distribution of the annual bonus. GIB ensures that total variable remuneration does not limit its ability to strengthen its capital base.

The bonus pool takes into account the performance of the Bank, which is considered within the context of its risk management framework. This ensures that the variable pay pool is shaped by risk considerations and Bank-wide notable events.

The size of the variable remuneration pool and its allocation within the Bank takes into account the full range of current and potential risks, including:

- The capital required to support the risks taken
- The level of liquidity risk assumed in the conduct of business
- Consistency with the timing and likelihood of potential future revenues incorporated into current earnings

The NRC keeps itself abreast of the Bank's performance against the risk management framework. The NRC will use this information when considering remuneration to ensure that return, risk and remuneration are aligned.

Risk adjustments

The Bank has an ex-post risk assessment framework, which is a qualitative assessment to back-test actual performance against risk assumptions.

In years where the Bank suffers material losses in its financial performance, the risk adjustment framework would work as follows:

- There would be considerable contraction of the Bank's total variable remuneration.
- At the individual level, poor performance by the Bank would mean individual KPIs are not met, and hence employee performance ratings would be lower.
- Reduction in value of deferred shares or awards.
- Possible changes in vesting periods, and additional deferral applied to unvested rewards.
- Lastly, if the qualitative and quantitative impact of a loss incident is considered significant, a malus or clawback of previous bonus awards may be considered.

The NRC, with Board approval, can rationalise and make the following discretionary decisions:

- Increase/ reduce the ex-post adjustment
- Consider additional deferrals or increase in the quantum of share awards
- Recovery through malus and clawback arrangements.

Malus and clawback framework

The Bank's malus and clawback provisions allow the NRC to determine that, if appropriate, unvested elements under the deferred bonus plan can be forfeited/adjusted, or the delivered variable remuneration could be recovered in certain situations. The intention is to allow the Bank to respond appropriately if the performance factors, on which reward decisions were based, turn out not to reflect the corresponding performance in the longer term. All deferred remuneration awards contain provisions that enable the Bank to reduce or cancel the awards of employees whose individual behaviour has had a materially detrimental impact on GIB during the concerned performance year. Any decision to take back an individual's award can only be taken by the NRC.

The Bank's malus and clawback provisions allow the Board to determine that, if appropriate, vested/unvested elements under the deferred bonus plan can be adjusted/cancelled in certain situations. These events include, but are not limited to, the following:

- Reasonable evidence of misbehaviour or material error by the employee causing harm to the Bank's reputation, or where the employee's actions have amounted to misconduct, incompetence or negligence.
- The employee's business unit suffers a material downturn in its financial performance, or a material risk management failure, or a material restatement of the financial statements of the Bank.
- The employee deliberately misleads the market and/or Shareholders in relation to the financial performance of the Bank.
- A significant deterioration in the financial health of the Bank, or the relevant line of business incurring losses

Clawback can be used if the malus adjustment on the unvested portion is insufficient, given the nature and magnitude of the issue.

Components of variable remuneration

Variable remuneration has following main components:

Upfront cash	The portion of the variable remuneration that is awarded and paid out in cash on conclusion of the performance evaluation process for each year.
Deferred cash	The portion of variable remuneration that is awarded and paid in cash on a pro-rata basis over a period of 3 years.
Upfront share awards	The portion of variable remuneration that is awarded and issued in the form of shares on conclusion of the performance evaluation process for each year.
Deferred shares	The portion of variable remuneration that is awarded and paid in the form of shares on a pro-rata basis over a period of 3 years.

All deferred awards are subject to malus provisions. All share awards are released to the benefit of the employee after a six-month retention period from the date of vesting. The number of equity share awards is linked to the Bank's share price as per the rules of GIB's Share Incentive Scheme. Any dividend on these shares is released to the employee, along with the shares (i.e. after the retention period).

Corporate governance report (continued)

Deferred remuneration

All employees at the grade of 12 ("Grade 12") and higher shall be subject to deferral of variable remuneration as follows:

Element of variable remuneration	Allocation of variable remuneration						
	Group CEO, MDs and the 5 most highly-paid business line employees		Grade 12 and higher	Deferral period	Retention	Malus	Clawback
	Upfront cash	40%	50%	None	-	-	Yes
Upfront shares	-	10%	None	6 months	Yes	Yes	
Deferred cash	10%	-	3 years*	-	Yes	Yes	
Deferred share awards	50%	40%	3 years*	6 months	Yes	Yes	

* The deferral vests on a pro-rata basis over a 3-year period.

The NRC, based on its assessment of role profiles and risk taken by an employee, could increase the coverage of employees that would subject to deferral arrangements.

CORPORATE COMMUNICATIONS

The Bank has in place a Corporate Communications Strategy which ensures that the disclosures made by GIB are fair, transparent, comprehensive and timely; and reflect the character of the Bank and the nature, complexity and risks inherent in its business activities. Main communications channels include the website, annual report, corporate brochures, staff newsletters, and announcements in the

appropriate media. This transparency is also reflected in the Bank's website (www.gib.com) which provides substantial information on the Bank, including its profile and milestones; vision, mission, values, strategy and objectives; its financial statements for the last five years at least; and its press releases.

Corporate governance report (continued)

CODE OF CONDUCT

The Bank's website also contains the Board-approved Code of Conduct that contains rules on conduct, ethics and on avoiding conflicts of interest, applicable to all the employees and Directors of the Bank. The Code of Conduct is designed to guide all employees and Directors through best practices to fulfil their responsibilities and obligations towards the Bank's stakeholders (Shareholders, clients, staff, regulators, suppliers, the public, and the host countries in which the Bank conducts business, etc.), in compliance with all applicable laws and regulations.

The Code addresses such issues as upholding the law and following best practices; acting responsibly, honestly, fairly and ethically; avoiding conflicts of interest; protecting Bank property and data; protecting client-confidential information and safeguarding the information of others; complying with inside information rules and with the prohibition on insider trading; preventing money laundering and terrorism financing; rejecting bribery and corruption; avoiding compromising gifts; as well as speaking up and 'whistle blowing'.

All employees and Directors of the Bank are reminded every year of their obligations under the Code of Conduct by means of an email from the Bank that includes a copy of the Code of Conduct (in English and Arabic), and everyone is required to sign an Acknowledgment and Declaration confirming that they have received and read the Code of Conduct and understand its requirements; have followed and will continue to follow these requirements; and agree that if they have any concern about any possible misconduct or breach of the Code of Conduct, they will raise the concern with the appropriate persons within the Bank as per the Code.

In addition, all employees of the Bank must sign an annual Declaration on outside employment and other activities, to ensure that no conflicts of interest exist. These Declarations are addressed to the Bank's Human Resources department. Similarly, all Directors and members of the Management Committee must complete and sign a similar annual Declaration, addressed to the Corporate Governance Committee of the Board.

DISCLOSURES

The Bank's website also provides access to GIB's annual reports, and all the information contained in these reports is therefore accessible globally. The information includes Management discussion on the business activities of the Bank, as well as discussion and analysis of the financial statements and risk management. The financial information reflects the latest International Financial Reporting Standards that were applicable for adoption in 2017.

The Board-approved Disclosure Policy is in accordance with the requirements of Basel 3 Pillar 3, in compliance with CBB rules. The objective of this policy is to ensure transparency in the disclosure of the financial and risk profiles of the Bank to all interested parties.

POLICY ON CONNECTED COUNTERPARTIES

The Board-approved Policy on Connected Counterparties governs GIB's dealings with such parties. The policy defines which parties are considered to be connected with GIB within the criteria set by the CBB, and imposes not only the limitations placed by the CBB but also additional criteria imposed by GIB. The policy sets out the internal responsibilities for reporting GIB's connected counterparties exposures to the CBB, and the disclosures to be made in GIB's financial statements and annual reports, in line with applicable disclosure requirements.

POLICY ON RELATED PARTY TRANSACTIONS

GIB has a Board-approved Code of Conduct which governs the conflict of interests and related party transactions. The Bank's dealings with its Shareholders are conducted on an arms-length basis in respect of its exposure to and deposits received from them. If loans are extended to related parties, these are approved on the basis of authorities delegated by the Board to the Group CEO. If the loans exceed these authorities, then further approval from the Executive Committee or the Board is requested. The Bank will not deal with any of its Directors in a lending capacity. It should be noted that Article 16 of the Articles of Association prevents Directors of the Bank from having any interest, directly or indirectly, in any contract with the Bank.

All loans to Senior Management members (including the CEO and his direct reports), as well as staff of GIB, are governed by the policies applicable to staff. These policies are reviewed by the Nomination & Remuneration Committee of the Board at least annually. All dealings with companies associated with a GIB Director or member of the Senior Management are referred to the Board for approval.

MATERIAL TRANSACTIONS THAT REQUIRE BOARD APPROVAL

The Bank has delegated credit authority to the Group CEO based on a risk-rating matrix. When considering transactions, any exposure to an entity that exceeds the Group CEO's limit will require the approval of the Board Executive Committee or the Board.

COMPLIANCE

The Compliance framework adopted by the Board reflects the principles for promoting sound compliance practices at GIB. It also demonstrates the Bank's adherence to applicable legal and regulatory requirements, and to high professional standards. The role of the Compliance function is to assist Senior Management in ensuring that the activities of GIB and its staff are conducted in conformity with applicable laws and regulations, and generally with sound practices pertinent to those activities. The Group Head of Compliance & Corporate Governance, who reports directly to the Group CEO, also has access to the Board through the Audit & Corporate Governance Committees, if required.

Compliance risk is the risk of legal or regulatory sanctions, material financial loss or damage to the reputation of the Bank arising from failure to comply with the requirements of applicable laws, rules, regulations and related self-regulatory organisations' standards and codes of conduct (collectively, applicable laws, rules and regulations). Group Compliance independently assesses compliance risk, and evaluates the business and control units for adherence to applicable laws, rules and regulations, including identifying compliance issues and risks, performing independent spot checks, and reporting on the state of compliance activities across the Bank.

The Bank's approach to the management of compliance risk is described in the Group Compliance Policy, which outlines the requirements of the Bank's group compliance programme, and defines roles and responsibilities of Board, Senior Management, Business and Control units, Internal Audit, and the three lines of defence in managing compliance risk. The requirements work together to drive a comprehensive risk-based approach for the proactive identification, management and escalation of compliance risks throughout the Bank.

The Group Compliance Policy also sets the requirements for reporting compliance risk information to Executive Management as well as the Board or appropriate Board level committees in support of Group Compliance responsibility for conducting independent oversight of the Bank's compliance risk management activities. The Board provides oversight of compliance risk mainly through its Audit Committee and the Corporate Governance Committee.

In ensuring that the tone emanates from the top, the Group CEO issues a yearly message to all of GIB employees reminding everyone of the importance of complying with all laws and regulations applicable to GIB's operations. Good compliance behaviour is also rewarded by making it a mandatory measurement criteria in staff evaluations.

ANTI-MONEY LAUNDERING

The Bank's current Anti-Money Laundering and Combating the Financing of Terrorism (AML/CFT) procedures and guidelines conform to the legal and regulatory requirements of the Kingdom of Bahrain. These legal and regulatory requirements largely reflect the FATF recommendations on Money Laundering. GIB's AML/CFT procedures and guidelines apply to all of the Bank's offices, branches and subsidiaries, wherever located. In addition, the GIB entities located outside Bahrain are subject to the laws and requirements of the jurisdictions where they operate, and if local standards differ, the higher standards apply.

Systems are in place to ensure that business relationships are commenced with clients whose identity and activities can reasonably be established to be legitimate; to collect and record all relevant client information; to monitor and report suspicious transactions; to provide periodic AML/CFT training to employees; and to review with external auditors

the effectiveness of the AML/CFT procedures and controls. The Bank's AML/CFT procedures prohibit dealing with shell banks. A proactive structure of officers is in place to ensure Group-wide compliance with AML/CFT procedures, and the timely update of the same to reflect the changes in regulatory requirements. This structure consists of the Group Head of Compliance and the Group Money Laundering Reporting Officer, MLROs, and Deputy MLROs.

CORPORATE GOVERNANCE FRAMEWORK – AUDIT

The Internal Audit review of the Bank's Corporate Governance framework is conducted annually as a separate project since the introduction of the Corporate Governance Rules in 2010. Accordingly, the latest audit was undertaken in October 2017. The purpose of the audit was to provide a level of assurance about the processes of corporate governance within the Bank. The scope of the audit included reviewing the existing policies, procedures and current practices followed by GIB in light of the CBB rules contained in the HC Module of the CBB Rulebook.

The overall conclusion of the audit was that the Corporate Governance framework of GIB appears to be operating effectively, and is providing a sound framework to control the risks inherent in GIB's current business activities.

STATUS OF COMPLIANCE WITH THE CBB RULES (MODULE HC)

GIB is in compliance with the CBB rules on Corporate Governance outlined in Module HC of the CBB Rulebook, and instances of non-compliance in 2017 are explained as follows:

Module HC 7.2.2 requires all Directors to attend and be available to answer questions from Shareholders at any Shareholder meeting.

In addition, Module HC 1.3.4 - 1.3.6 which requires Directors to attend at least 75% of all Board meetings in a given financial year, the late Chairman of Board was unable to attend more than 50% of the meetings held in 2017 due to medical issues.

Under Article 2 of GIB's Agreement of Establishment approved by Decree Law No. (30) for the year 1975 (as amended from time to time) (the "Agreement of Establishment"), GIB is subject to the Agreement of Establishment and its AoA (together the "GIB Constitutional Documents"), and in the event of any conflict between the GIB Constitutional Documents and the internal law of the Kingdom of Bahrain, the terms of the Constitutional Documents shall prevail. As a result, certain Corporate Governance requirements under HC-1, HC-4 and HC-5 that are in conflict with the AoA such as the nomination of Directors, the attendance requirements for Directors, the prohibition against proxies at Board Meetings, and the Board of Directors total remuneration, have not been adopted.
